Description: The navigation panel (id="ember416") moves while scrolling and covers other functionality on the content page at LinkedIn Learning

Pre-condition: To have an account on LinkedIn

Steps to reproduce:

1. Open https://www.linkedin.com/learning/software-testing-foundations-test-management/starting-out-with-test-management?resume=false

2. Scroll the page down

Expected result: There isn't space between the navigation panel (id="ember416") and the video container (class="classroom-layout__header classroom-layout__header--shadow")

Actual result: There is space between the navigation panel (id="ember416") and the video container (class="classroom-layout__header classroom-layout__header--shadow") that covers other functionality on the page

Category: UI

Environment: Google Chrome version 106.0.5249.61
　　　　　　　　Ubuntu 20.04.5

Software testing is characterized by unknown issues and unpredictable results. What bugs might be discovered? What happens if the product stops working? Does the test plan cover everything? What happens if the quality team misses a critical issue? The fact is good test management can mitigate and even fix most of these concerns. This course covers the best practices and processes involved in effectively managing a quality test. Join instructor Mike Fine and learn how to prepare for testing, execute your test plan, manage the data that results, and understand the next step of the software
